Formerly there was annual evaluation system for various courses and classes. The performance of the student is to be judged on percentage. Recently, university has reformed evaluation process and has introduced semester pattern. Students are assigned the internal marks on college assessment (CA) & external marks on university assessment (UA) programme. Grades are assigned on the basis of marks obtained in various ranges defined by the university.

Credit and Grade Point Assessment (CGPA) system is implemented by the university. This system considers continual contact between the teachers and the students, students' behavior and attendance are properly observed by the teachers.

The institution abides by all the rules and regulations of evaluation processes spelt by the UGC and university from time to time.

As affiliation system with university, we are good followers, there is a little scope for college to introduce its own evaluation system, however the personal impression of the faculty about student have some weightage when class tests or seminar is evaluated by faculty. College has its own evaluation system as follows:

1. Special assessment test before internal and university semester examination.
2. Evaluation through the seminars, projects, posters, home assignments, aptitude tests in poetry.
3. Online objective pattern test, open book examination.
4. Participation in extra-curricular activities.
